Today, Atlas had a once in a lifetime opportunity to ring the closing bell on the **Nasdaq** Stock Exchange in Times Square, NY! We are very proud of the bold accomplishments our company has achieved in the last few years and look forward to the future of our growing company. None of this would be possible without the hard work and dedication from our Atlas family and the relationships with our most valued clients. For that, we thank you!

We are excited to announce that Atlas has been ranked #9 on the Engineering News-Record's list of Top 10 Environmental Management Firms. In addition, we are listed among the Top 200 Environmental Firms overall.

"We are pleased to again be recognized by ENR as one of the top environmental, engineering, construction and program management firms in the U.S. These rankings indicate our employees' commitment to bringing quality assurance and predictable delivery to our clients and communities throughout the life-cycle of projects."

Today we celebrate the incredible work and achievements of women engineers around the world. Taking time to celebrate their achievements in a traditionally male-dominated field gives women engineers the opportunity to show off their careers and interests. In return, more women flock into the field of engineering because of the inspiration by other women who pioneered the field before them.

Happy International Women in Engineering Day!

From humble beginnings to over 3,500 world-class employees, our fabulous journey wouldn't be possible without the heart-led leadership team who bring unique and diverse talents to Atlas. Their ability to lead with kindness while driving exceptional growth is a true representation of our company foundation.
